RE: Enclosed Documents for Signature

Dear Mr. Brock:

This letter is a request for your signature on the enclosed documents, which relate to a patent application currently being prosecuted in the United States Patent and Trademark Office, in which you are named as an inventor. This patent application originated prior to your leaving employment with The Procter & Gamble Company, being filed on August 4, 1998 in the Patent Cooperation Treaty in Europe. The application is entitled "Wrinkle Reducing Composition" and your co-inventors are Markus Altmann, Bruno Hubesch, Robert Mermelstein, Marjorie Peffly, Perter Torgerson, Christian Vermote and Ricky Woo.

I request your signature on the enclosed documents, as follows:

1. Declaration Combined with Power of Attorney – Please sign and date both copies, where your name appears on page 2. In executing this document you are attesting to your belief that you are an original joint inventor of the subject matter claimed and for which a patent is being sought; that you have reviewed and understand the contents of the patent application (a copy is enclosed for your reference); and that you acknowledge your duty to disclose information material to patentability. Further, you are appointing the attorneys listed to prosecute the application before the appropriate Patent and Trademark Office.

2. U. S. Assignment – Please provide your notarized signature on both copies. The notary paragraph appears on the last page. (Notaries are readily available at most banks as well as Bureau of Motor Vehicles offices.) In executing this document you are affirming the invention set forth in the patent application; and transferring your interest in the invention to The Procter & Gamble Company.

Please just return the signed documents. Should you incur any expenses in fulfilling this request please inform me so that I can see that you are reimbursed.

Thank you for your cooperation in this matter. If you have any questions whatsoever please do not hesitate to contact me.

Sincerely,

Sandy Wilson
